

Welcome to the team! At WOM, you actively contribute to medical progress.

WOM is a pioneer and global leading manufacturer in the field of medical technology. We are looking for reinforcements for our team in Ludwigsstadt. If you like to work independently, would like to break new ground with us in the field of Minimally Invasive Medicine, and wish to consistently evolve, we should get to know each other.

WHAT WE OFFER

- ▶ Versatile tasks in an exciting work environment
- ▶ International teamwork
- ▶ Appreciation and respect
- ▶ More than 30 working time models
- ▶ Systematic advanced training by the WOM ACADEMY
- ▶ Room for innovation with the WOM InnoHub
- ▶ Career opportunities in an expanding company

WOM Ludwigsstadt is looking for Manufacturing Engineer (w/m/d) for the Value Stream medical visualization, video recording and documentation solutions

YOUR TASKS ARE

- ▶ Planning, conceptual design and implementation of automation and digitization projects in the field of our screen production
- ▶ Implementation of new production lines under the aspect „Industry 4.0“, e.g. in the area of assembly and logistics automation
- ▶ Cooperation with product development regarding required manufacturing technologies for new products
- ▶ Further development of automation systems and production processes with regard to new technologies
- ▶ Development of service and maintenance planning for machines and plants
- ▶ Elimination of faults in automated systems
- ▶ Participation in projects for production relocation
- ▶ Implementation of product validation for new products
- ▶ Cooperation with international development (hardware and software)
- ▶ Creation and maintenance of assembly and packaging instructions
- ▶ Participation in product development projects
- ▶ Implementation of quality improvements in production
- ▶ Preparation of validation requirements/documentation for new plants/processes and support for process validation

YOU ARE OFFERING

- ▶ Completed technical studies or comparable technical degree
- ▶ Good knowledge and practical experience in the field of automation technology and/or mechanical engineering as well as in project planning and implementation of automation and digitization projects
- ▶ Knowledge in project management and modern project planning methods
- ▶ English spoken and written

THESE ARE YOUR PERSONAL STRENGTHS

- ▶ Structured, independent working method with an eye for the essential
- ▶ Assertiveness and persuasiveness
- ▶ You are communicative and enthusiastic about teamwork
